

Non Ferrous Metals

We're ferociously good at non ferrous metals, come try our range of expertly prepared metals

Non Ferrous Metals stockholders and suppliers, delivering to the whole of the UK. Non ferrous grades are stocked in round bar, hollow bar (tube) flat bar and plate . Types of non ferrous metals supplied include phosphor bronze, aluminium bronze, aluminium, brass, copper and titanium. Non ferrous grades are supplied in a large range conforming to British, European, American and International standards.

If you do not find the specification you require on our web site please contact our experienced sales team who may be able to assist you with your enquiry.

Form of Supply

West Yorkshire Steel are non ferrous suppliers and stockholders of round bar, hollow bar, flat bar, sheet and plate. Material can be sawn to your required sizes as one offs or multiple cut pieces.

Phosphor Bronze

Combining toughness, wear resistance, strength and low coefficient of friction, phosphor bronze is commonly supplied as continuous cast bar and hollow bar / tube. Click [here](#) to visit our Phosphor Bronze page.

Aluminium Bronze

With combined characteristics of high strength and corrosion resistance Aluminium Bronze grades are available in round bar and a limited range of hexagon bar. Click [here](#) to visit our Aluminium Bronze page.

Aluminium

A low density metal with reasonable strength Aluminium is available in a variety of forms. Aluminium cast tooling plate is also available. Click [here](#) to visit our Aluminium page.

Brass Bar

A copper/zinc alloy non ferrous metal. Brass grades are suited to a wide number of applications. Click [here](#) to visit our Brass Bar page.

Copper

Popular for its high electrical conductivity, Copper is a good machining non ferrous metal suitable for many applications. Click [here](#) to visit our Copper page.

Titanium

Combining excellent corrosion resistance with suitability to work at very high temperatures Titanium is available as bar. Click [here](#) to visit our Titanium Bar page.

Certification

Non ferrous alloys are available with a certificate of conformity, please request when placing any orders.

Quality Assured Supply

All our non ferrous grades are supplied in accordance with our ISO 9001:2015 registration.
